

Join Zetec at the 'Digital Imaging and Ultrasonics for NDT' Conference

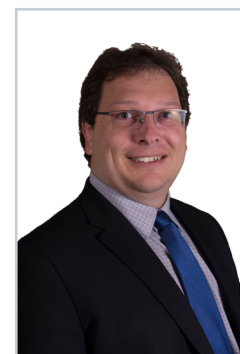

July 24-26, 2018 • Foxwoods Resort • Mashantucket, CT

We are pleased to announce that Zetec will be participating at the Digital Imaging and Ultrasonics for NDT Conference. We have some valuable activities planned for this event including:

Two Hour FMC/TFM Tutorial:

Daniel Richard, Technology Manager for Zetec will be presenting the course: **Practical Consideration on FMC/TFM**, July 24 at 1:30PM. This two-hour tutorial will cover:

- FMC / TFM Principles
- Probe and instrument element count and aperture consideration
- Resolution consideration of the TFM picture
- Application of acoustic field simulation in TFM
- Inspection results example
- and more!

Daniel Richard

Product Showcase:

Visit the Zetec booth and experience firsthand the latest in NDT inspection innovations. Discover how Zetec products and solutions can deliver an inspection advantage for you.

We hope you are planning to attend this valuable conference and look forward to seeing you there. For registration information please visit: www.asnt.org/DIUT
